CERTIFICATE OF LEARNING

This is to certify that,

Mr./Ms. Karhale Shrikant G.
has participated in four days workshop on "Machine Learning", conducted by MITU Skillologies, Pune from 11th July to 14th July 2018 at International Institute of Information Technology, Hinjawadi, Pune.

A comprehensive set of topics pertaining to Machine Learning using Python were covered in this training program.

Name of Add-On Course Coordinator: Prof. Kimi B. Ramteke

Name of Event: Add-On Course on "Data Science using R Programming"

Date of Execution: 19th, 20th, 28th & 30th July 2018

Duration of Event: 30 Hours

Number of Participants: 77

Enclosure:

- Permission Letter From Principal with Budget
- Communication mail with Resource person
- Notice
- Resume of Resource Person
- Schedule of the event
- Attendance Sheet
- Photographs
- Appreciation letter to Resource Person
- Feedback
- Sample Certificate
- Remuneration Copy

Hope Foundation's

International Institute of Information Technology (I²IT), Pune

Department of Computer Engineering

To,
The Principal
I²IT, Hinjawadi,
Pune-411057

Date: 17th July 2018

Subject: Application to organize add-on course on "Data Science with R- Programming" on 19th, 20th, 27th and 28th July, 2018.

Respected Madam,

Department of Computer Engineering would like to organize add-on course on "Data Science with R- Programming" for Third year Computer Engineering students from 19th, 20th, 27th and 28th July, 2018 by Mr. Sriraman Rajagopalan of Mass Technologies, Pune.

I request you to permit us to organize this add- on course on the mention dates and sanction remuneration amount of Rs. 25,000/- for the same.

Following are the objectives and outcomes of the course:

Objectives:

1. To introduce students to Fundamentals of R programming.
2. To learn how to do the MongoDB connectivity with R Programming.
3. To learn how the combination of Data science with R programming can be used to analyze the data.

Outcomes:

On completion of this course students will be able

1. To interact with database using R Programming.
2. To develop the program to manipulate and visualize data using R Programming.
3. To combine statistical and machine learning techniques with R programming to analyze and interpret complex data.

Thanking you in anticipation,

Prof. Kirti B. Ramteke
Add-On Course Coordinator

Dr. Sashikala Mishra
HoD, Computer Engineering

Permitted

18/7/18

DEPARTMENT OF COMPUTER ENGINEERING
ACADEMIC YEAR: 2018-19/ SEMESTER - I

Date: 17th July, 2018

NOTICE

This is to inform all TE students that Department of Computer Engineering is organizing add-on course on **"Data Science using R Programming"** on 19th, 20th, 27th and 28th July, 2018.

Note that this course is offered free of cost to all students to impart knowledge beyond syllabus. All the sessions will be hands-on and students can bring their own laptops for programming sessions.

Attendance for this add-on course is mandatory and will be monitored closely. Strict action will be taken against those students who are found absent.

Prof. Kimi B. Ramteke
(Coordinator)

Dr. Sashikala Mishra
(HoD, Computer Engineering)

Professional Summary

- Over 15 years' experience in the Information Technology sector (IT/ITES) as a CRM technical-functional consultant (Telecomm domain) and 5 years' experience as a language training consultant, for both corporate and individual clients
- Hands-on experience in using **Statistics** and **Machine Learning techniques** to analyze and extract meaningful insight of data, and building prediction models (both classification and regression) for supervised learning and building clusters for unsupervised learning; calculating and presenting evaluation metrics to report model performance; visualization and building dashboards; Text Analytics using NLTK; and building interactive forms and integrating them with machine-learning algorithms

Career Summary

Organisation	Period	Position
Independent Consultant	Jan 2012 – till date	• Training consultant
IT Professional	Apr 1995 – Dec 2011	• Tech Lead (CRM Consultant) • Analyst Programmer

Technical Skills

Operating Systems	Windows, Unix, Linux
Languages	C, C++, R, Python, Scala, Pig, Hive, HBase, SQL
GUI toolkit	Visual C++, Tkinter (TK Interface)
Software suite	SAS, Tableau
Computing System/ Framework	Spark, Hadoop, Shiny
Office Tools	MS Office suite (includes Word, Excel, PowerPoint, Access, Projects, Outlook)
Databases	Oracle, SQL Server, MongoDB

Academics

- Post-Graduation (Executive Post Graduate Program in Business Analytics and Big Data), AEGIS school of Business and Telecommunication, Mumbai, 2016-17
- B.S. (Mathematics) from Madras University, Chennai, 1994
- HDSE (Higher Diploma in Software Engineering) from Aptech, Chennai, 1994
- Qualified English Teaching and Business English teaching from TESOL Institute, 2014

Projects done during EPGP-BABD course

1. Project name: SCORE – Student Course Recommendation

Description

To recommend appropriate courses, using various **Classification algorithms** (*Decision Tree, Random Forest, Naive Bayes, KNN*), for Grade 10 students based on their marks and preferred career aspirations. The algorithm also suggests alternative courses in case of mismatch in the initial recommendation.

Environment

Machine language algorithms using R, Python, Tableau for data visualization, interactive front-end forms using Shiny, Excel

2. Project name: Stock Market Analysis

Description

Calculate and analyze a stock's price movement parameters like Bollinger Band Values, Relative Strength Index (RSI), Stock movement 'legs' and its relationship with Fibonacci ratio

Environment

R, Excel

3. Project name: Employee attrition model

Description

To build an Employee attrition model using **Logistic regression and Survival Analysis algorithms** to predict whether an employee is likely to attrite or not, based on a set of employee attributes

Environment

Sriraman Rajagopalan

Machine language algorithms using SAS and R

4. Project name: Telecom customer churn prediction model

Description

To build a customer churn model using *Logistic regression* to predict whether a customer is likely to churn or not, based on a set of customer's attributes

Environment

Machine language algorithms using R

5. Project name: Sales prediction model

Description

To build a retail market's sales prediction model using *Linear Regression algorithms* to help them get insight into the properties of products and stores that would play a key role in increasing its sales. Also, to predict the sales of each product based on the history of its sales.

Environment

Machine language algorithms using Python

6. Project name: Interest rate forecast and VRT (Variance Ratio Test)

Description

To analyse and calculate the VRT of 4 different types of interest rates of Indian Government bonds – 10 years, 5-years, 1-year and 3-month interest; and applying the VRT on stock prices.

Environment

Data analysis and statistical calculations using Excel

Professional Experience

1	Independent Consultant	Jan 2012 – till date
<ul style="list-style-type: none">Working as an English language trainer for both students and working professionals; focusing on grammar and development of skills including writing, speaking, reading, presentation, group discussions, debates and story tellingWorked as an English content writer for corporate and individual clients focusing on web content, script writing and general writing		
2	IT Professional	Apr 1995 – Dec 2011
<ul style="list-style-type: none">Analyze, Design, Develop, Test, Implement, Deploy and Deliver, Support (Technical and Functional) and Manage various CRM solutions (including Front-end Customization and interfaces, PL/SQL and Shell scripts, ETL, Data migration, Data Analysis) in Customer Care, Order management, Product management, Configuration management, Solution Management and BillingCreate and maintain all technical and functional specification documentsCreate and monitor project plan to track project progress and deliverablesLiaise with on-site project team to finalize and rollout production deploymentAdhere to ISO quality standards at all stages of project life cycleOn site travel for business study, and implementation activitiesEnvironment: Unix, Windows, Amdocs Clarify CRM, SQL Server, Oracle PL/SQL, C++, Visual C++, TIBCO, Tuxedo, Oracle Warehouse Builder, Various proprietary online applications, Genesys, Billing, MS Office, PeopleSoft (HR and Finance modules), Visual Source Safe

Activity Report

Add-On Course on "Data Science using R Programming"

Academic Year: 2018-19

Semester: I

Name of Event: Add-On Course

Date of Conduction: 19th, 20th, 28th & 30th July 2018

Time: 8.30 To 4.30 PM

Targeted Audience: TE Computer Engineering Students

Number of Participants: 79

Venue: Computer Center

Topic: "Data Science using R Programming"

Resource Person: Mr. Sriraman Rajagopalan, Mass Technologies, Pune.

Coordinator: Prof. Kimi B. Ramteke

Objectives:

1. To introduce students to Fundamentals of R programming.
2. To learn how to do the MongoDB connectivity with R Programming.
3. To learn how the combination of Data science with R programming can be used to analyze the data.

Outcomes:

On completion of this course students will be able

1. To interact with database using R Programming.
2. To develop the program to manipulate and visualize data using R Programming.
3. To combine statistical and machine learning techniques with R programming to analyze and interpret complex data.

Activity Description:

The Add-On course on “Data Science using R Programming” was organized for Third Year Computer Engineering students. The hands on sessions conducted during the course enhanced the logical design of machine learning problems through R programming. At the end of the course students implemented the mini projects based on different machine learning data.

Prof. Kimi B. Ramteke
Add-On Course Coordinator

Dr. Sashikala Mishra
HoD, Computer Engineering

Subject: Letter of Appreciation

Dear Sir,

On behalf of the Department of Computer Engineering, I²IT, Pune we sincerely thank you for your kind support and gracing the occasion as a Resource Person for four days training program on "Data Science using R Programming" for our TE students conducted on 19th, 20th, 28th and 30th July, 2018. We wish to extend our deep appreciation to you for giving us your valuable time.

We look forward for your guidance and support in the future too.

Warm Regards,

Dr. Sashikala Mishra

Feedback

Date:-30/07/2018

Add-on course on _Data Science using R Programming , Mr. Sriraman Rajagopalan

Comments:-

- 1 There should be at least 3 such add on courses in a semester
- 2 If possible, keep workshop for advanced machine learning like image recognition and document classification by the same sir. As we understood the basics nicely, we can now learn advanced.
- 3 Keep more workshop like this, these are more productive than regular classes. Next one can be advance machine learning.
- 4 No

Subject: Application to organize Add-on Course on "Core Java Programming" on 14th, 15th, 21st and 22nd February, 2019

Respected Madam,

Department of Computer Engineering would like to organize Add-on Course on "Core Java Programming" for Second Year Computer Engineering students on 14th, 15th, 21st and 22nd February, 2019 from 08:30 am to 04:30 pm by Milind Ankleshwar as Expert from Mass Technologies under our MoU with this organization.

I request you to permit us to organize this add-on course and sanction the remuneration amount as Rs. 28,000/- for the same. Following are the objectives and outcomes of the course.

Objectives:

1. Gain knowledge about basic Java language syntax and semantics to write Java programs and use concepts such as variables, conditional and iterative execution methods etc.
2. Understand the fundamentals of object-oriented programming in Java, including defining classes, objects, invoking methods etc and exception handling mechanisms.
3. Understand the principles of inheritance, packages and interfaces.
4. Implementing Java Programs in variety of technologies and on different platforms

Outcomes:

On completion of this course students will be able to

1. Write Java application programs using OOP principles and proper program structuring
2. Write Java programs to implement error handling techniques using exception handling
3. Develop software in the Java programming language to solve the given problem

Thanking you,

Deptii

ACADEMIC YEAR: 2018-19 / SEMESTER - II

Date: 8th February, 2019

NOTICE

This is to inform all SE students that Department of Computer Engineering is organizing add-on course on "**Core Java Programming**" from **14th, 15th, 21st and 22nd February, 2019**.

Note that this course is offered free of cost to all students to impart knowledge beyond syllabus. All the sessions will be hands-on and students can bring their own laptops for programming sessions.

Attendance for this add-on course is mandatory and will be monitored closely. Strict action will be taken against those students who are found absent.

Add -On Course on "Core Java Programming"

Course Schedule

Day & Date	Time	Course Contents
Thursday, 14/02/2019	8:30 AM To 12:30 PM	<ul style="list-style-type: none">• Object Oriented Concepts• Overview of Java• Difference between JDK,JRE and JVM• Internal Details of JVM• Basics of Java - Operators, Loops, variables
		Lunch Break
	01:30 PM To 04:30 PM	<ul style="list-style-type: none">• Java Classes and Methods• Java Constructors & Auto Garbage Collector• Overloading Methods• String Handling, Arrays and Vectors
	04:30 PM To 05:30 PM	<ul style="list-style-type: none">• Hands-on Practice & Exercise
Friday, 15/02/2019	8:30 AM To 12:30 PM	<ul style="list-style-type: none">• Inheritance, Overriding, Abstract Classes• Packages and Interfaces
		Lunch Break
	01:30 PM To 04:30 PM	<ul style="list-style-type: none">• Exception Handling• Super keyword, Final keyword• Interface vs Abstract class vs Concrete class
	04:30 PM To 05:30 PM	<ul style="list-style-type: none">• Hands-on Practice & Exercise
Thursday, 21/02/2019	8:30 AM To 12:30 PM	<ul style="list-style-type: none">• Multi Threading in Java• Synchronization• Collection API
		Lunch Break
	01:30 PM To 04:30 PM	<ul style="list-style-type: none">• Java Input and output Handling• Applets
	04:30 PM To 05:30 PM	<ul style="list-style-type: none">• Hands-on Practice & Exercise
Friday, 22/02/2019	8:30 AM To 12:30 PM	<ul style="list-style-type: none">• AWT• Event handling and Layouts in Java• How to create Jar
		Lunch Break
	01:30 PM To 04:30 PM	<ul style="list-style-type: none">• JDBC• Building MIS Application using AWT and JDBC
	04:30 PM To 05:30 PM	<ul style="list-style-type: none">• Hands-on Practice & Exercise

Note: Students can bring their own laptops for hands-on sessions.

Activity Report

Add-on Course on "Core Java Programming"

Academic Year: 2018-19

Semester: II

Name of Event: Add-on Course

Date of Conduction: 14th, 15th, 21st and 22nd February, 2019

Time: 08:30 AM To 04:30 PM

Target Audience: SE Computer Engineering Students

No of Participants: 68

Venue: Computer Center

Topic: "Core Java Programming"

Resource Persons: Mr. Milind Ankleshwar, Mass Technologies, Pune

Coordinator: Prof. Deptii Chaudhari

Objectives:

1. Gain knowledge about basic Java language syntax and semantics to write Java programs and use concepts such as variables, conditional and iterative execution methods etc.
2. Understand the fundamentals of object-oriented programming in Java, including defining classes, objects, invoking methods etc and exception handling mechanisms.
3. Understand the principles of inheritance, packages and interfaces.
4. Implementing Java Programs in variety of technologies and on different platforms

Outcomes:

On completion of this course students will be able to

1. Write Java application programs using OOP principles and proper program structuring
2. Write Java programs to implement error handling techniques using exception handling
3. Develop software in the Java programming language to solve the given problem

Activity Description:

The add-on course on "Java Programming" was organized for Second Year Computer Engineering students. The course started with the discussion from data types passing through OOPs coding, constructors, method overloading, packages, interfaces, exception handling, multithreading, String handling and more. All the concepts were put forth with the help of fully explained slides followed by complete programs. At the end of the course students developed small projects that showcased their java programming skills they learned.

Subject: Application to organize Add-on Course on "Android Application Development" on 16th, 17th, 23rd and 24th February, 2019

Respected Madam,

Department of Computer Engineering would like to organize Add-on Course on "Android Application Development" for Third Year Computer Engineering students on 16th, 17th, 23rd and 24th February, 2019 from 08:30 am to 04:30 pm by Ashish Shende as Expert from Whitesnow Software Consultancy Private Limited, Pune. He is also associated with Optimized Infotech as a Corporate Trainer.

I request you to permit us to organize this add-on course and sanction the remuneration amount as Rs. 28,000/- for the same. Following are the objectives and outcomes of the course.

Objectives:

1. To learn basics of Android Studio, the default integrated development environment (IDE) supported by Google to develop Android apps
2. Manage user data and multimedia on a mobile device via the Android framework libraries.
3. Use the sensors available on mobile devices to enhance user interaction and feedback.
4. Publish Applications to the Google Play Store.

Outcomes:

On completion of this course students will be able to

1. Install and configure Android application development tools.
2. Apply Java programming concepts to Android application development.
3. Write simple GUI applications, use built-in widgets and components, work with the database to store data locally

Thanking you,

Deptii
Prof. Deptii Chaudhari

DEPARTMENT OF COMPUTER ENGINEERING
ACADEMIC YEAR: 2018-19 / SEMESTER - II

Date: 13th February, 2019

NOTICE

This is to inform all TE students that Department of Computer Engineering is organizing add-on course on "**Android Application Development**" on 16th, 17th, 23rd and 24th February, 2019.

Note that this course is offered free of cost to all students to impart knowledge beyond syllabus. All the sessions will be hands-on and students can bring their own laptops for programming sessions.

Attendance for this add-on course is mandatory and will be monitored closely. Strict action will be taken against those students who are found absent.

Subject: Letter of Appreciation

Dear Sir,

On behalf of the Department of Computer Engineering, I²IT, Pune we sincerely thank you for your kind support and gracing the occasion as a Resource Person for four days training program on "Android Application Development" for our students conducted on 16th, 17th and 23rd, 24th February 2019. We wish to extend our deep appreciation to you for giving us your valuable time.

We look forward for your guidance and support in the future too.

Warm Regards,

Dr. Sashikala Mishra

CERTIFICATE

Optimized Infotech awards this certificate to:

PATIL VARSHA SHEKHAR

and verifies that the above has successfully completed:
Workshop on Android Application Development

Issued on: 24th February 2019

Optimized Infotech

Issuing Authority

Activity Report

Add-on Course on "Android Application Development"

Academic Year: 2018-19

Semester: II

Name of Event: Add-on Course

Date of Conduction: 16th, 17th, 23rd and 24th February, 2019

Time: 08:30 AM To 04:30 PM

Target Audience: TE Computer Engineering Students

No of Participants: 47

Venue: Computer Center

Topic: "Android Application Development"

Resource Persons: Mr. Ashish Shende, Optimized Infotech, Pune

Coordinator: Prof. Deptii Chaudhari

Objectives:

1. To learn basics of Android Studio, the default integrated development environment (IDE) supported by Google to develop Android apps
2. Manage user data and multimedia on a mobile device via the Android framework libraries.
3. Use the sensors available on mobile devices to enhance user interaction and feedback.
4. Publish Applications to the Google Play Store.

Outcomes:

On completion of this course students will be able to

1. Install and configure Android application development tools.
2. Apply Java programming concepts to Android application development.
3. Write simple GUI applications, use built -in widgets and components, work with the database to store data locally

Activity Description:

The add-on course on "Android Application Development" was organized for Third Year Computer Engineering students. Mobile application development is leading field in computer engineering. The hands on sessions conducted during the course enhanced the programming skills and logical thinking of students. During the course students learned how to create an Android project with Android Studio and run a debuggable version of the app. Students also acquired knowledge about Android architecture and the key principles underlying its design. At the end of course students implemented real life problem statements.

14th August 2018

Subject: Permission to conduct Augmentation course for T.E. & B.E. students of E&TC department.

Mam,

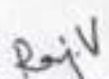

We would like to take permission from you to hold Augmentation courses for T.E. & B.E. students of E&TC department for this current semester on **"Usage of Open Sources for Geoinformatics & Machine Learning"**, which will be taken into two modules namely:

1. Free and Open Source Solutions for Geoinformatics for Digital & Skill India during 17th -18th August 2018 by Prof Venkatesh Raghavan & his team from Osaka City University, Japan.
2. Machine Learning using Python during 20th - 21st August 2018 by Mr Tushar Kute, Mitu Skillologies, Pune, India.

This course will be conducted free of charge for our students.

Looking forward for your kind acceptance.

Thank you very much

Subject: Invitation to conduct 2 days hands-on session on FOSS4G for Digital & Skill India

Dear Sir,

On behalf of the Department of Electronics & Telecommunication Engineering, I2IT, Pune we would like to invite you as a Resource Person for two days workshop program on "**Free and Open Source Solutions for Geoinformatics for Digital & Skill India**" on 17th & 18th August 2018. This workshop will be one of the module of our augmentation course on "**Usage of Open Sources for Geoinformatics & Machine Learning**" offered for TE & BE students of E&TC department for the current semester.

We look forward for your kind acceptance in this regard.

Thank you very much

Warm Regards,

Dr V Rajesh Chowdhary

Coordinator of the Augmentation Course
Electronics & Telecommunication Engineering,

NOTICE

14th August 2018

All students of T.E. & B.E. of E&TC department are hereby informed that Augmentation courses for this current semester on **"Usage of Open Sources for Geoinformatics & Machine Learning"**, which will be taken into two modules namely:

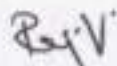

1. Free and Open Source Solutions for Geoinformatics for Digital & Skill India during 17th -18th August 2018 by Prof Venkatesh Raghavan & his team from Osaka City University, Japan.
2. Machine Learning using Python during 20th – 21st August 2018 by Mr Tushar Kute, Mitu Skillologies, Pune, India.

Attendance is compulsory for all students and No fees will be charged from the students.

17th August will be at Convention Center

18th, 20th & 21st August 2018 @ A-307

Time: 09:00 AM – 4:30 PM for all days.

Dr. V Rajesh Chowdhary
Course Coordinator

Dr. S M Mahalakshmi Naidu
Head of the Department

Report on Add – on Course

Organized by

Department of Electronics & Telecommunication

1. **Program type:** Add-on course
2. **Date & Time:** 17th, 18th, 20th & 21st August 2018 at 09:30 AM – 04:30 PM
3. **Venue:** Convention Center (17th & 18th) & Seminar Hall A-307 (20th & 21st), I²IT, Campus
4. **No. of students registered:** 73
5. **Target students:** TE & BE (E&TC)
6. **Fee Details:** Free
7. **Instructor details:** Prof. Venkatesh Raghavan, he is presently based in Japan as Professor of Geoinformatics at the Graduate School for Creative Cities, OCU. His research interest includes geospatial Web Services, sensor network and remote sensing for change detection. He is one of the founders of the OSGeo (Open Source Geospatial) Foundation (www.osgeo.org).
Mr. Tushar Kute, he is presently working as a professional trainer with MITU Skillologies based in Pune. He has more than 10 years of experience in conducting workshops & training in various open source solution for machine learning, Internet of Things, Artificial Intelligence etc.
8. **Objectives:**
 - To introduce the MapMint framework that provides quick and easy way to build and manage geospatial web applications using Open Source, Open Standards and Open Data.
 - To perform hands-on session on Open Data Kit (ODK), which is an open-source set of tools which help organizations author, field, and manage mobile data collection solutions
 - To introduce basics of python programming & basic data pre-processing operations.
 - To perform regression analysis and artificial neural network using python for data analytics.
9. **Outcomes:**
 - Understand the basics of geospatial web application using open source solutions
 - Develop the forms for data collection and uploading data to the webserver and visualize in open GIS software
 - Learn python programming and implement basic algorithms for data analytics.

Prof. Amit. Patwardhan

Currently, Scientist at Pralhad P.Chhabria Research Center (A Project of Finolex), formerly Principal -Polytechnic, at Vishwabharathi Academy's College of Engineering and Polytechnic, Ahmednagar, India .Worked as Assistant Professor in School of Interdisciplinary Science & Technology at International Institute of Information Technology, Pune (I²IT) for 8 years teaching at Postgraduate level. He has a Master of Technology Degree in Computer Science and Engineering from Rajiv Gandhi Technical University, India and currently pursuing his Doctoral Degree from Luleå University, of Technology, Luleå, Sweden. He has worked with LNCT College Engineering for 6 years. His areas of interest are Embedded Systems, Wireless Sensor Networks, Robotics, Big Data Analytics and convergence of technology. Has been teaching at PG level for 8 years has published more than 10 research papers. Also consultant for multiple small scale industries in embedded system development. And also consultant for Intel India for development of curriculum and experiments on Atom and Intel Galileo platforms. Established Intel and NXP research center of excellences in Embedded Systems. Conducted more than 20 DST INSPIRE Programs for Higher Secondary, Students in the state of Maharashtra, to inspire young students to take up science as a career.

Report on Add – on Course

Organized by

Department of Electronics & Telecommunication

1. **Program type:** Add-on course
2. **Date & Time:** 18th, 19th January & 15th & 16th January 2019 at 09:00 AM – 05:00 PM
3. **Venue:** Seminar Hall A-307, I²IT, Campus
4. **No. of students registered:** 33
5. **Target students:** SE (E&TC)
6. **Fee Details:** Free
7. **Instructor details:** Prof. Amit Patwardhan is currently working as a Scientist in PPCRC, Pune. His field of expertise includes embedded system, wireless sensor networks, Robotics, ig Data Analytics & IoT. He has worked as Assistant professor in School of Interdisciplinary Science & Technology at International Institute of Information Technology, Pune for 8 years teaching at Postgraduate level.
8. **Objectives:**
 - To understand architecture and features of the Arduino development board.
 - To identify realistic industrial use and formulate problem statement.
 - To get acquainted with IDE for interfacing and interfacing sensors etc.
 - To develop skills to provide solutions for real life problem.
9. **Outcomes:**
 - Students will be able to apply sensor interfacing with Arduino board.
 - Students will be able use Arduino board as a platform for their projects.
 - Every student has prepared a project with the knowledge acquired during the course.

Augmentation Course on

**Title: Introduction to PCB
Design & Manufacturing Process**

To
The Principal
I²IT, Pune

9th January 2019

Subject: Permission to conduct Augmentation course for T.E. & B.E. students of E&TC department.

Dear Mam,

We would like to take permission from you to hold Augmentation courses on "**Introduction to Arduino Based System Design**" for S.E. E&TC students, as per the schedule below:

18 - 19 January 2019 09:00 AM – 05:00 PM

15 - 16 February 2019 09:00 AM – 05:00 PM

Also, on "**Introduction to PCB Design & Manufacturing Process**" for S.E. & T.E. E&TC students, as per the schedule below:

22 - 23 February 2019 09:00 AM – 05:00 PM

27 - 28 February 2019 09:00 AM – 05:00 PM

This course will be conducted free of charge for our students.

Looking forward for your kind acceptance.

Thank you very much

NOTICE

10th January 2019

All S.E. & T.E. students of E&TC department are hereby informed that Augmentation courses for this current semester are scheduled as follows

Introduction to Arduino Based System Design for S.E. E&TC students on 18th - 19th January and 15th - 16th February 2019.

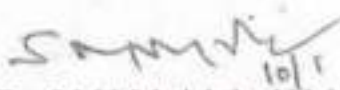

Introduction to PCB Design & Manufacturing Process for S.E. & T.E. E&TC students on 22nd - 23rd and 27th - 28th February 2019

Venue: A-307 Seminar Hall.

Time: 09:00 AM - 05:00 PM for all days.

Attendance is compulsory for all students and no fees will be charged from the students.

Dr. V Rajesh Chowdhary
Course Coordinator

Dr. S M Mahalakshmi Naidu
Head of Department
Dept. of Electronics and Telecommunication
International Institute of Information Technology
Hinjawadi, Pune - 411057

Ref. No.: I²IT/2018-19/E&TC/AG/394

Date: 8th January, 2019

To,

Prof. Amit Patwardhan

Pralhad P. Chhabria Research Center

Hinjawadi, Pune

Subject: Invitation letter

Dear Sir,

On behalf of the Department of Electronics & Telecommunication Engineering, I²IT, Pune, we would like to invite you as a Resource Person for four days training program on "Introduction to PCB Design & Manufacturing Process" for S.E. & T.E. E&TC students, as per the schedule below:

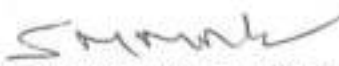

22 - 23 February 2019	09:00 AM – 05:00 PM
27 - 28 February 2019	09:00 AM – 05:00 PM

We look forward for your kind acceptance in this regard.

Thank you very much

Warm Regards,

Dr S.M. Mahalakshmi Naidu
Head of Department,
Electronics & Telecommunication Engineering
I²IT, Pune

Prof. Amit. Patwardhan

Currently, Scientist at Pralhad P.Chhabria Research Center (A Project of Finolex), formerly Principal -Polytechnic, at Vishwabharathi Academy's College of Engineering and Polytechnic, Ahmednagar, India .Worked as Assistant Professor in School of Interdisciplinary Science & Technology at International Institute of Information Technology, Pune (I²IT) for 8 years teaching at Postgraduate level. He has a Master of Technology Degree in Computer Science and Engineering from Rajiv Gandhi Technical University, India and currently pursuing his Doctoral Degree from Luleå University, of Technology, Luleå, Sweden. He has worked with LNCT College Engineering for 6 years. His areas of interest are Embedded Systems, Wireless Sensor Networks, Robotics, Big Data Analytics and convergence of technology. Has been teaching at PG level for 8 years has published more than 10 research papers. Also consultant for multiple small scale industries in embedded system development. And also consultant for Intel India for development of curriculum and experiments on Atom and Intel Galileo platforms. Established Intel and NXP research center of excellences in Embedded Systems. Conducted more than 20 DST INSPIRE Programs for Higher Secondary, Students in the state of Maharashtra, to inspire young students to take up science as a career.
