Office of Head Logging Services, Tripura Asset, Agartala-799014

18.06.2018

TO WHOM SO EVER IT MAY CONCERN

This is to Certify that Ms Shweta Anil Gawahale, a student of I2IT, Pune Engg Institute; has worked in our Logging Services of ONGC as an intern from 28th May 2018 to 15th June 2018.

During the course of Internship, she exhibited good understanding and learning. She understood about the Logging activities and the parameters governing the identification of oil and gas. She got some hands on over the software framework which makes changes over the architecture by considering all the parameters.

Her performance during the tenure was good. We wish her good Luck for her further endeavours.

Thinking About Programs

Dates: Dec. 17, 2018 - Dec. 29,2018

This edition of the PCI schools presents a more systematic approach to languages and structures. It will present contrasts like programming using typeless systems and systems with strong typing, or the contrast between data and control structures. These ideas originate in dealing with paradoxes like Russell's paradox in set theory. The lambda calculus and systems based on it will be our main vehicles of study.

Among the concepts you will learn are: thinking about data structures and code, reasoning about code using strong types, distinctions between data structures and their different implementations, and some ways of how abstract ideas are implemented into practice.

You will need to bring your own laptop with a GNU/Linux like Ubuntu 16 or 18 (LTS). While other flavours of GNU/Linux are ok, we need you to have the standard C development system based on GCC etc., the Racket system 6.x, and the GHC (Glasgow Haskell) system 8.x installed on your GNU/Linux systems.

The sessions will be through out the day from morning 8:30 am till evening 5:00 pm. They will be held at the Persistent Systems Ltd. Hinjewadi office.

WISDOM SPROUTS

Asit Dhaware

Date: 28-01-2019

We are pleased to offer you a position of Intern Software Engineer in our esteemed organisation starting from 28ᵗ January 2019 for a duration of 6 months under the company's Corporate-Academic policies. During this period, you will be trained under and associated with the Development team of the company.

As an Intern you agree to

1. Maintain the Company's code of conduct.
2. Attend all training sessions on time without fail.
3. Weekly complete atleast 40 official working hours on weekdays.
4. Take no holidays.
5. Complete all Tasks assigned to you on time in proper standards as laid down by the Company.
6. Maintain the integrity and security of any information, data or material that you may get in contact with during your internship period.
7. Not being associated with any other company by either means of profit or non-profit terms.
8. The company rights of terminating you without any prior notice if you are found guilty violating any of the points mentioned above and/or anything else that may affect the company's environment in an adverse way.

As an Intern, you will be paid on per task basis depending on the complexity of the tasks on which you were deployed. As an Intern you will not be liable to any of the other facilities that the permanent employees of the Company may enjoy.

We are happy to see you on-board and hope you will turn out to be a useful resource for the company during your tenure with us. We wish you luck in your journey with Wisdom Sprouts!!

Regards,
