

Hope Foundation's
International Institute of Information Technology (I²IT)
Hinjawadi, Pune- 411057
Department of Computer Engineering

Date: 21/09/2020

Name of the Event: Guest Lecture on "Exception Handling & Database Connectivity in Python"

Name of Event Coordinator: Prof. Deptii Chaudhari

Date of the Event: 18/09/2020

Resource Person: Ms. Sonali Mindhe

Number of Participant - 55 students & 01 faculty member

Topic - Exception Handling & Database Connectivity in Python

Objectives:

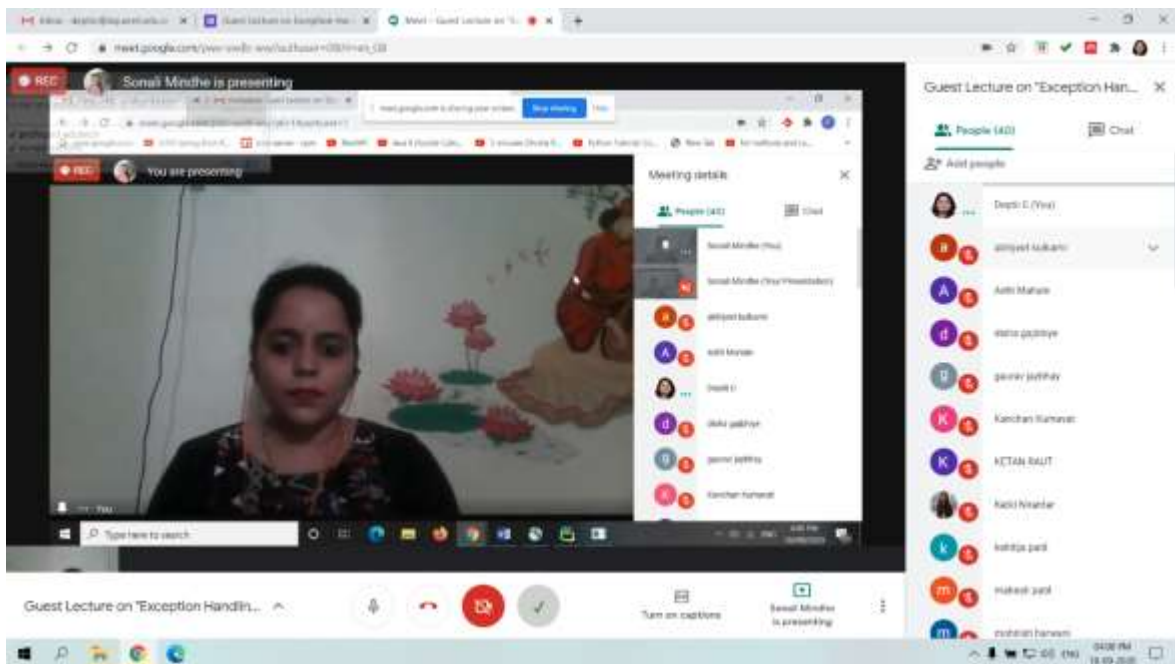

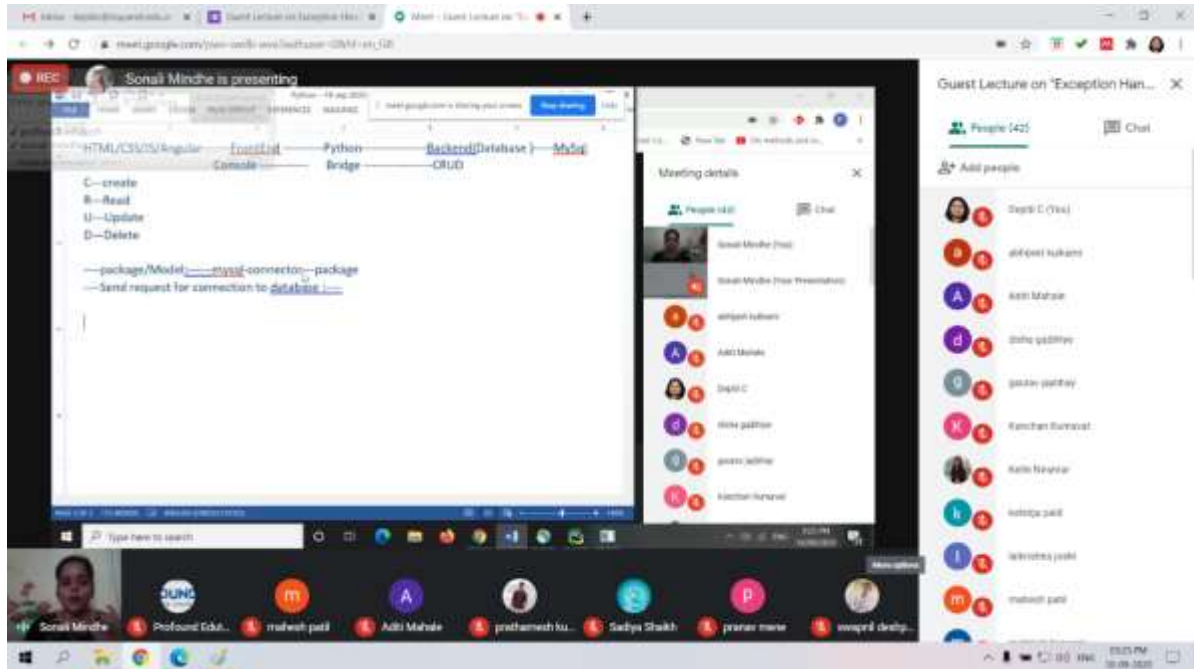

1. Learn how to handle exceptions in Python.
2. Understand working with the Databases using Python.
3. Learn handling of MySQL database connectivity with Python

Outcomes: Student will able to:

1. Identify and handle the exception conditions in Python programs
2. Build Python projects with database connectivity

Summary of the Event: The department organized a guest lecture on "Exception Handling & Database Connectivity in Python" for Third Year Computer Engineering students on 18th September, 2020 by Ms. Sonali Mindhe as Expert from Profound Edutech Pune. Through the lecture students gained knowledge about working with the various Databases using Python and handling the Exceptions. The students appreciated the guest lecture as they expanded their knowledge about building the Python Project with database connectivity.
