Academic Year 2019-2020

Class: TE IT

Report

The Department of Information Technology conducted four day's Add on Course "**J2SE Concept & Programming**" for Third Year students.

The main objective of this course was to give overview of java programming. As Expert gives brief about core java concept to the students. The advantages of core java is as

- Java is easy to learn.

Java was designed to be easy to use and is therefore easy to write, compile, debug, and learn than other programming languages.

- Java is object-oriented.

This allows you to create modular programs and reusable code.

- Java is platform-independent.

One of the most significant advantages of Java is its ability to move easily from one computer system to another. The ability to run the same program on many different systems is crucial to World Wide Web software, and Java succeeds at this by being platform-independent at both the source and binary levels.

Subject: Letter of Appreciation

Dear Ma'am,

We would like to convey our sincere thanks for being here at our International Institute of Information Technology Pune and devoting your valuable time and knowledge for conducting an Add on Course on "J2SE Concept & Programming" dated 19th September to 23rd September 2019.

We also thank you for sharing your ideas and guiding the students.

We expect same type of bonding for future events at our institute.

With Regards,

Received

Subject: Application to organize Add on Course on "Practical Approach to Python Programming"

Respected Ma'am,

Department of Information Technology would like to organize an Add on Course on Practical Approach to Python Programming on 26th Jul, 27th Jul & 01st Aug, 02nd Aug from 8:30 am to 4:30 pm for Second Year students. The session will be conducted by *Sagar* Experts from Github, Pune.

I request you to permit us to organize the same and sanction the amount of **Rs. 28000/-** as remuneration for the expert. Following are the objectives and outcomes of the course.

Objectives:

- To understand Basics of python
- To learn introduction to programming, I/O, and visualization using the Python programming language

Outcomes:

1. Students can demonstrate understanding of modern version control tools.
2. Students should be able to design, code, test, and debug *Python* language programs.

Thanking you in anticipation,

Prof. Keshav Tambre
Coordinator

Report

The Department of Information Technology conducted four day's Add on Course **"Practical Approach to Python Programming "** for Second Year students.

The main objective of this course was to give overview of python programming. As Python is a trending technology, students enthusiastically participated in the workshop. The trainer Mr. Sagar Nangare conducted theory with practical examples connecting all topics with the real world problems.

On the first day, students learnt the basics of Python Programming which started with Installation process covering all important topics such as loops, data structures & exception handling.

On the second day, topics like List, Tuples, arrays, File Handling was covered with their practical examples .

The third day trainer explained about object oriented concept with python.

The beginning of fourth day was with K-means clustering followed by its practical example then moving on to support vector machine algorithm and by the end of the session Artificial Neural Network was covered.

By the end of the session students got an insight of what Python is and how it works.

Report

The Department of Information Technology conducted four day's Add on Course **“OOP with Java ”** for Second Year students.

The main objective of this course was to give overview of java programming along with oops concept. As Expert gives brief about all object oriented concept along with core java concept to the students. The advantages of core java is as

- 1) The main aim of OOP is to bind together the data and the functions that operate on them so that no other part of the code can access this data except that function.
- 2) Java was designed to be easy to use, write, compile, debug, and learn than other programming languages. Object-Oriented: Allows you to create modular programs and reusable code. Platform-Independent: Ability to move easily from one computer system to another
- 3) Java is object-oriented. This allows you to create modular programs and reusable code.

Corporate Trainer :- L & D Infotech Pvt. Ltd. Pune since 24th April 2019 till date

Professional Summary:

- I have total 2.9+ years of experience in IT professional and having 1.8+ year experience in Software Testing.
- Strong knowledge of STLC & SDLC with experience in writing & executing Test Cases
- Experience in various types of testing - Functional, Non-functional, Regression and Retesting testing, etc.
- Involved in Web based applications testing.
- Good understanding of software quality processes and practices.
- Quick learning and multi-tasking abilities, experience of working with team members from different cultures.

Professional Experience:

- ✓ **Company Name** : Nvidia Graphics Pvt. Ltd, Pune
- Payroll Company** : Spectrum Consultants India Pvt. Ltd.
- Designation** : Process Executive (QA)
- Team Size** : 20
- Working From** : Feb 2018 to till date
- Job Role and Responsibility** :
 - Performing Image Analysis and Quality Assurance.
 - Use the techniques, skills and modern engineering tools necessary for engineering practice and implement them on existing software.
 - Participated in data quality control, validation, extraction.
 - Troubleshooting the problems faced during execution of the modules and escalating them to the team.
 - Familiarity with collecting, and compiling business data, and drafting reports using MS Excel and Tableau.
- ✓ **Company Name** : iSASH IT Solution Pvt. Ltd, Pune
- Designation** : Software Developer
- Team Size** : 10
- Working From** : June 2017 to Jan 2018
- Job Role and Responsibility** :
 - Development and implementation of software applications are using Java Technology
 - Strong emphasis and knowledge on OOPS concepts and Java.

Technical Skills & Tools Packages:

Manual Testing	- SDLC, STLC, Functional and Non-Functional Testing, White Box Testing, Black Box Testing
Defect Tracking	- Defect Life Cycle, Defect Tracking, Defect Reporting
Application and Tools	- Selenium IDE, Bugzilla, Test Link, Eclipse, MS-Office
Programming Languages	- C, C++, Java, HTML
Operating System	- Windows NT Family, Linux/Ubuntu

Extra-Curricular Activities:

• Conducted the Guest Lecture on C and C++ concept at JSPM Polytechnic, Handewadi, Hadapsar, Pune
• Conducted the Workshop on Android App Development as an Assistant Trainer at Sinhgad Institute, Wadgaon (Bk), Pune.
• Live Project – Uploaded 2 Android App on Google Play Store (<u>Learn C Programming & Learn C++</u>).
• 2nd winner of National Level (CYNOSURE'11) Project competition in the year 2011 at JSPM, Imperial College of Engineering, Pune.
• Organized the District Level Program (DECOESA'11) in the year 2010-11 during Diploma.
• College Magazine Secretary during Engineering.

Educational Qualification:

Subject: Application to organize Add on Course on **"OOP with Java"** from 29th Feb 2020 to 3th Mar 2020.

Respected Ma'am,

Department of Information Technology would like to organize an Add on Course on **"OOP with Java"** on 29th Feb, 1st, 2nd & 3th Mar 2020 from 8:30 AM to 4:30 PM for Second Year students. The session will be conducted by Experts from L& D Infotech, Pune.

I request you to permit us to organize the same and sanction the amount of **Rs. 30000/-** as remuneration for the expert. Following are the objectives and outcomes of the course.

Objectives:

1. To introduce the object oriented programming concepts.
2. To understand object oriented programming concepts, and apply them in solving Problems.
3. To introduce the principles of inheritance and polymorphism; and demonstrate how they relate to the design of abstract classes
4. To introduce the implementation of packages and interfaces
5. To introduce the concepts of exception handling and multithreading.
6. To introduce the concepts of Collection Framework.

Outcomes:

CO1: Able to understand the use of OOPs concepts.

CO2: Able to solve real world problems using OOP techniques.

CO3: Able to understand the use of abstraction.

CO4: Able to understand the use of Packages and Interface in java.

CO5: Able to develop and understand exception handling, multithreaded applications with synchronization.

CO6 : Able to understand the use of Collection Framework.

The course outcomes are mapped with PO1, PO2, PO3, PO6, PO7, PO8, PO12 and PSO1.

Thanking you in anticipation,

Prof. Keshav Tambre

Coordinator

Report

The Department of Information Technology conducted four day's Add on Course **"OOP with Java "** for Second Year students.

The main objective of this course was to give overview of java programming along with oops concept. As Expert gives brief about all object oriented concept along with core java concept to the students. The advantages of core java is as

- 1) The main aim of OOP is to bind together the data and the functions that operate on them so that no other part of the code can access this data except that function.
- 2) Java was designed to be easy to use, write, compile, debug, and learn than other programming languages. Object-Oriented: Allows you to create modular programs and reusable code. Platform-Independent: Ability to move easily from one computer system to another
- 3) Java is object-oriented. This allows you to create modular programs and reusable code.
