Dear Students,

Please find attached herewith the project sponsored by industry to be undertaken during this online internship for two months. Please note we will be allotting you an industry mentor who will be your primary contact for technical discussions while Mr. Amod Harankhedkar (email: aah.vlab@coep.ac.in, Mobile: 9405021918) will be your facilitator. All administrative difficulties and in case of any difficulty with communication with team members, mentors, or any other complaint regarding anything will be communicated to Amod. The primary mode of communication will be e-mail correspondence but for document submission related communication we will provide you virtual space on the portal. You are free to use any other mode of communication within the team for regular meetings but please ensure that in any case the verbal abuse in any form will not be accepted and the concerned person will be expelled from the activity without any notice.

Please treat this as a golden opportunity to be connected with industry and academic experts and take maximum advantage of the expertise of the mentors. All the problem statements are futuristic in nature and quite demanding. The detailed project description is attached herewith. Finally those whose ideas are apt for further processing the concerned industry will give the team a chance to be at their place and complete the hardware prototype also.

The Virtual space for the project will be updated on the Intech portal by tomorrow morning. The following are the details of the mentor allotted for your project team.

Name of Mentor — Mr. Atul Bothe

Email — atul.bothe@afourtech.com

Mobile No. — 9923693426

Looking forward to receiving a whole hearted response and a professional approach to solve the problems which are in the national interest.

Kindly mention your Project ID as P08 and Team ID as H2 while communicating with your mentor through email.

With best wishes

Hi Friends,

Welcome to InTech Olympiad online internship program. It's pleasure of organisation team InTech Olympiad to work with you all. For the next couple of months let's work together and do everything that is possible to find a solution for the problem statement provided to you with as and when required guidance from your mentor. We are sure, you will enjoy the process and will get to learn a lot, if you put in all your efforts and energy behind this activity.

Your first goal is to come up with project synopsis by this Friday May 22nd (4 days including today) followed by second milestone of technical solution by next Friday May 29th.

At the end of both the goals, you need to make a presentation to your mentor about your findings and ideas. For these two goals specifically, there is no prescribed format of presentation. You can choose your own.

We will setup an online meeting for the presentation by you.

We are all located at different places and do not know much about each other. Let us start by introducing

Re: Project Training

Dear Mr. Omkar Masal,

We are pleased to offer you an internship with TATA TECHNOLOGIES LIMITED at our **Pune** office. This is purely an educational internship.

As we discussed, your internship is expected to last from **June 24nd, 2019 to July 13th, 2019**, 47.5 hours per week. However, at the sole discretion of the Company, the duration of the internship may be extended or shortened with or without advance notice.

As an intern, you will not be a Company employee. Therefore, you will not receive a salary, wages, or other compensation. In addition, you will not be eligible for any benefits that the Company offers its employees, including but not limited to health benefits, holiday pay, vacation pay, sick leave or retirement benefits. You understand that participation in the internship program is not an offer of employment, and successful completion of the internship does not entitle you to employment with the Company.

During your internship, you may have access to confidential, proprietary, and/or trade secret information belonging to the Company. You agree that you will keep all this information strictly confidential and refrain from using it for your own purposes or from disclosing it to anyone outside the Company. In addition, you agree that, upon conclusion of the internship, you will immediately return to the Company all its property, equipment, and documents, including electronically stored information.

During the training period, you agree that you will follow all the Company's policies that apply to non-employee interns, including, for example, the Company's anti-harassment policy.

This letter and project guidance, mentioned below, constitutes the complete understanding between you and the Company regarding your internship and supersedes all prior discussions or agreements.

Letter of Internship

Date : 20th May, 2020

Dear Sir/Madam,

We would like to inform you that **Malay Sheth** from your college was selected for

Program Name : IoT Interfaces Skilling Program with IoTIoT.in

Program Details :

India has a huge engineering population but there is very little innovation coming out of India. One of the many reasons for this is 'Lack of skills'.

This program is an attempt by "**IoTIoT.in**" to bridge this gap by not just providing next generation training but full industry level hardware access and support for creating IoT and AI products.

This is a highly coveted program and selected students are groomed to be world class domain experts. The program only focuses on cutting edge technologies to help students compete globally.

The program demands 12hrs per week from the student to complete skilling.

Malay was a part of the internship from 27th September 2019 - 20th February 2020

During this time he also worked on **IAB i.e. Industry Academy Body** which works towards bridging the gap between industry and academy by connecting professors and students with industry.

Sincerely,

Name : Nikhil Bhaskaran

Abhinav Biyani,

We would like to congratulate you on being selected for the "Embedded Engineer" position with Firewires, effective 01/Apr/2020. All of us at Firewires are excited that you will be joining our team!

As we discussed during the interview process, this is a non-paid academic internship during which you will be expected to provide 30 hours per week through 30/June/2020.

This internship is viewed by Firewires as being an educational opportunity for you, rather than a part-time job. As such, your internship will include training/orientation and focus primarily on learning and developing new skills and gaining a deeper understanding of concepts through hands-on application of the knowledge you learned in class. Pursuant to the Fair Labor Standards Act, we will abide by the Indian Labor law.

Again, congratulations and we look forward to working with you this coming year.

Sincerely,

Sub: Permission for Internship

Dear Sir,

International Institute of Information Technology (I²IT) is affiliated to Savitribai Phule Pune University (formerly University of Pune) Please visit www.isquareit.edu.in

I²IT has taken various efforts to improve the skills and the employability of the students viz.:

1. Experts Lectures on recent trends on technology by industry persons
2. Campus Recruitment Training
3. Students motivated to be member of various professional bodies viz., (ACM, IEEE, CSI, Yi etc)
4. Students are also motivated to undergo professional certifications (MTA, Six Sigma etc)
5. An activity based learning method – Mini modeling is undertaken by each student which helps them to get insight into project
6. To participate in various Industry Techathon, Hackathon ,etc.

Another effort to enhance the employability of the student in industry is through Internship and industry sponsor project in which we expect the students to learn the practical approach and understand the industry environment. Company is requested to allot project to the students or else depute the student on an ongoing activity/project, or they may be placed in different departments within the company to understand the flow of functions and interdepartmental responsibilities. This will save company efforts on training after employment and students will deliver fast once he/she will join the company.

Mr. Vivek Guruwale is a student of 6th Semester of Electronics & Telecommunication Engineering department in our Institution and is interested to undergo training from 30/5/2019 to 30/6/2019 in your esteemed organization. I am sure that with your kind support we will able to establish a meaningful Industry-Academia Collaboration which leads to improvement in quality of our students. This internship is as per the recommendation of the institute for curriculum enrichment.

We request necessary permission be accorded to the student for Internship if any. Kindly Oblige

Thanking You.

Letter of Internship

Date : 20th May, 2020

Dear Sir/Madam,

We would like to inform you that **Malay Sheth** from your college was selected for

Program Name : IoT Interfaces Skilling Program with IoTIoT.in

Program Details :

India has a huge engineering population but there is very little innovation coming out of India. One of the many reasons for this is 'Lack of skills'.

This program is an attempt by "**IoTIoT.in**" to bridge this gap by not just providing next generation training but full industry level hardware access and support for creating IoT and AI products.

This is a highly coveted program and selected students are groomed to be world class domain experts. The program only focuses on cutting edge technologies to help students compete globally.

The program demands 12hrs per week from the student to complete skilling.

Malay was a part of the internship from 27th September 2019 - 20th February 2020

During this time he also worked on **IAB i.e. Industry Academy Body** which works towards bridging the gap between industry and academy by connecting professors and students with industry.

Sincerely,

Name : Nikhil Bhaskaran

Abhinav Biyani,

We would like to congratulate you on being selected for the "Embedded Engineer" position with Firewires, effective 01/Apr/2020. All of us at Firewires are excited that you will be joining our team!

As we discussed during the interview process, this is a non-paid academic internship during which you will be expected to provide 30 hours per week through 30/June/2020.

This internship is viewed by Firewires as being an educational opportunity for you, rather than a part-time job. As such, your internship will include training/orientation and focus primarily on learning and developing new skills and gaining a deeper understanding of concepts through hands-on application of the knowledge you learned in class. Pursuant to the Fair Labor Standards Act, we will abide by the Indian Labor law.

Again, congratulations and we look forward to working with you this coming year.

Sub: Permission for Internship

Dear Sir,

International Institute of Information Technology (I²IT) is affiliated to Savitribai Phule Pune University (formerly University of Pune) Please visit www.isquareit.edu.in

I²IT has taken various efforts to improve the skills and the employability of the students viz.:

1. Experts Lectures on recent trends on technology by industry persons
2. Campus Recruitment Training
3. Students motivated to be member of various professional bodies viz., (ACM, IEEE, CSI, Yi etc)
4. Students are also motivated to undergo professional certifications (MTA, Six Sigma etc)
5. An activity based learning method – Mini modeling is undertaken by each student which helps them to get insight into project
6. To participate in various Industry Techathon, Hackathon ,etc.

Another effort to enhance the employability of the student in industry is through Internship and industry sponsor project in which we expect the students to learn the practical approach and understand the industry environment. Company is requested to allot project to the students or else depute the student on an ongoing activity/project, or they may be placed in different departments within the company to understand the flow of functions and interdepartmental responsibilities. This will save company efforts on training after employment and students will deliver fast once he/she will join the company.

Mr. Vivek Guruwale is a student of 6th Semester of Electronics & Telecommunication Engineering department in our Institution and is interested to undergo training from 30/5/2019 to 30/6/2019 in your esteemed organization. I am sure that with your kind support we will able to establish a meaningful Industry-Academia Collaboration which leads to improvement in quality of our students. This internship is as per the recommendation of the institute for curriculum enrichment.

We request necessary permission be accorded to the student for Internship if any. Kindly Oblige

Thanking You.
