Outcomes:

It will give the direction to students to set their career paths.

Activity Description:

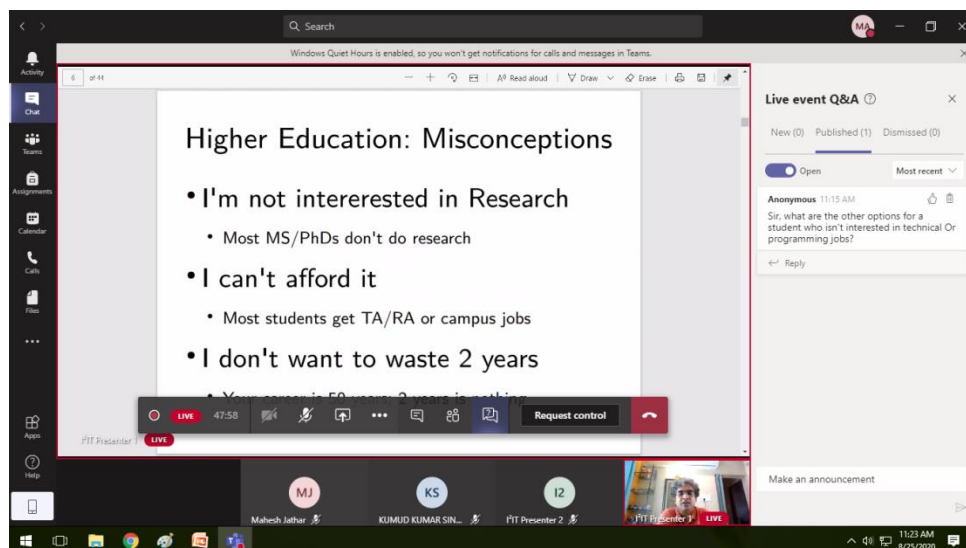

This webinar was conducted by an eminent ACM speaker, Mr. Navin Kabra. He is currently a co-founder and CTO of Reliscore.com a software start-up, and the creator of PuneTech.com a portal for the tech community in Pune, India.

He addressed almost all questions of the audience which are always in student's mindset like difference between ctc and package, when is the right time to apply for a post-graduation course? Right after graduation or should we first get some job experience? Would it be better to do a job and then go for PG or go for PG first? Can you suggest good colleges/universities for MS/MTech in and outside India?

He answered each and every question one by one. By the end of the webinar every student at least knew where their interest lies and had a clear mindset of what lies ahead of them.

This webinar was a team collaborated effort of all the students and teachers of ITSA and ACM Student Chapter of I²IT. It was an example of great teamwork, unparalleled determination and a beautiful execution!

Higher Education: Misconceptions

- I'm not interested in Research
 - Most MS/PhDs don't do research
- I can't afford it
 - Most students get TA/RA or campus jobs
- I don't want to waste 2 years
