Activity Description in Nutshell:

The members of I²IT CESA conducted a Webinar on the Trends in Networking Industry on 4th September 2021. It was organized by the co-ordinators of CESA Mr. Atharv Kulkarni and the teacher co-ordinator Prof. Sunil A. Sushir. The session was delivered by the resource person Mr. Bhaskar Bhumkar, he is Senior Manager, Software development engineering in CISCO. The session started with a brief introduction of the speaker Mr. Bhaskar Bhumkar given by the CESA members. Further the speaker provided some information about networking in general and then began with the different trends available. He also explained about few of the ongoing networking patterns used in the industry. He also gave information about what can be useful while opting for placements. The session then ended by the faculty and student's interaction with the speaker in a doubt solving discussion.

PIM SM

The diagram illustrates a network topology for Protocol Independent Multicast Sparse Mode (PIM SM). It features seven routers labeled R1 through R7. R1 is connected to R2, R3, and R5. R2 is connected to R3 and R4. R3 is connected to R2 and R4. R4 is connected to R2, R5, and R6. R5 is connected to R1, R4, and R7. R6 is connected to R4 and R7. R7 is connected to R5 and R6. A server icon labeled 'Multicast source' is connected to R1. Green arrows indicate the multicast distribution path from R1 through R2, R4, and R6 to R7, and through R5 to R7. A laptop icon is connected to R6.
