Activity Description in Nutshell:

The department of computer engineering conducted an In-house Guest Session on Software System Design using UML on 15th November 2021. The session was delivered by the resource person Prof. Ashwini Jarali, she is Assistant Professor in the department of computer engineering. The Speaker guided the students by understanding the concept of UML design. This session covers the design of different types of UML diagrams used in SRS. The session then ended by the student's interaction with the speaker in a doubt solving discussion and the overall Feedback was very good.
