

DEPARTMENT OF COMPUTER ENGINEERING

Principal Permission Form for Events

Academic Year 2020-21, Semester-I

Date: 29/10/2020

To
The Principal,
Hope Foundation's International Institute of Information Technology, Pune-57

Subject: Permission to conduct Add-on course on "Java Programming" for SE Computer Engineering students

Respected Madam,

With respect to the above subject, department of Computer Engineering is organizing the Add-on course on "Java Programming" at I²IT, Pune for SE students on 30/10/20, 31/10/20, 01/11/20, 06/11/20, 07/11/20, 08/11/20. Duration of the event is 5 hours/day starting on the date 30/10/20 at 09:00 am.

The resource person details:

Name of the Expert: Mr. Sai Gopal Tootika

Affiliation/Designation: Chief Architect

Name of the Industry/Organization: L & T Infotech

Email ID: saigopal.t@gmail.com Contact Number: 9356116231

Remuneration required: Rs. 16,000 /- Only

Objectives of the Event:

EOB1: Gain knowledge about basic Java language syntax and semantics to write Java programs and use concepts such as variables, conditional and iterative execution methods etc.

EOB2: Understand the fundamentals of object-oriented programming in Java, including defining classes, objects, invoking methods etc and exception handling mechanisms.

EOB3 : Understand the principles of inheritance, packages, and interfaces.

EOB4: Implementing Java Programs in variety of technologies and on different platforms

Outcomes of the Event:

EO1: Write Java application programs using OOP principles and proper program structuring

EO2: Write Java programs to implement error handling techniques using exception handling

EO3: Develop software in the Java programming language to solve the given problem

**Hope Foundation's
INTERNATIONAL INSTITUTE OF
INFORMATION TECHNOLOGY**

**DEPARTMENT OF COMPUTER ENGINEERING
ACADEMIC YEAR: 2020-21 / SEMESTER - I**

Date: 29th October 2020

NOTICE

This is to inform all SE students that the Department of Computer Engineering is organizing an add-on course on "**Java Programming**" 30/10/20, 31/10/20, 01/11/20, 06/11/20, 07/11/20, 08/11/20.

Note that this course is offered free of cost to all students to impart knowledge beyond syllabus. All the sessions will be hands-on and will be conducted through online mode using Google Meet.

Attendance for this add-on course is mandatory and will be monitored closely.

Mode: Live Online Training (On Google Meet)

Timing: 9:00 AM To 2:00 PM

Prof. Deptii Chaudhari
(Coordinator)

Dr. Sashikala Mishra
(HOD, Computer Engineering)

DEPARTMENT OF COMPUTER ENGINEERING

Event Report

Academic Year 2020-21, Semester-I

Date: 10/11/20

Name of HoD: Prof. Sashikala Mishra

Name of Event Coordinator (s): Prof. Deptii Chaudhari

1. **Name of Event:** Add-On Course on "Java Programming"
2. **Date of Execution:** 30/10/20, 31/10/20, 01/11/20, 06/11/20, 07/11/20, 08/11/20
3. **Duration of Event (hours/days):** 5 Hrs
4. **Number of Participants:** 65 students & 01 faculty member
5. **Sanctioned Budget (if applicable):** Rs. 16000 + 18 % GST
6. **Total Expenditure:**
7. **Enclosures (check list):** Tick

	Permission from Head of Institute
	Flyer (if any)
	Expert Person Profile
	Registration Details
	Expense Details with Receipts
✓	Photographs
	Attendance Sheets
	EO-PO/PSO Attainment

Objectives of the Event (Max 6):

EOB1: Gain knowledge about basic Java language syntax and semantics to write Java programs and use concepts such as variables, conditional and iterative execution methods etc.

EOB2: Understand the fundamentals of object-oriented programming in Java, including defining classes, objects, invoking methods etc and exception handling mechanisms.

EOB3 : Understand the principles of inheritance, packages, and interfaces. **EOB4:** Implementing Java Programs in variety of technologies and on different platforms

Outcomes of the Event (Max 6):

EO1: Write Java application programs using OOP principles and proper program structuring

EO2: Write Java programs to implement error handling techniques using exception handling

EO3: Develop software in the Java programming language to solve the given problem

Event Screenshots: Add-On Course on "Java Programming"

Academic Year 2020-21, Semester-I

Date: 10/11/20

The screenshot shows a Google Meet window. On the left, a presentation slide titled "Class and OOPS" is displayed. The slide content includes:

- Class is unit of program in java, a data/logic holder
- ✓ Definition of a type with attributes and methods
- ✓ Can Extend another Class / Abstract Class
- ✓ Constructors called for initializing the class
- ✓ Destructor (finalize()) - not used
- ✓ Provided encapsulation by hiding types and methods with 4 level of access (private, protected, default, public)
- ✓ All methods are virtual providing polymorphism as a core feature
- ✓ Can override toString() method to return a string representation of the class.

Next to the slide is a code editor showing a Java class named "Stack":`public class Stack {
 private Object[] elements;
 private int pointer;
 public Stack(int size) {
 elements = new Object[size];
 }
 public void push(Object element) {
 this.elements[pointer++] = element;
 }
 public Object pop() {
 return elements[--pointer];
 }
 public static void main(String[] args) {
 Stack stack = new Stack(10);
 stack.push("a1");
 System.out.println(stack.pop());
 }
}`

On the right side of the Meet window, there is a list of participants: Dignit C (Yash), Rishabh Singh, Akash Singh Chaudhary, Aniket Patil, Aniket Mishra, Anurag Chavan, Apoorva Thorat, Apurva Kulkarni, and Aniket Mishra. The bottom of the window shows the Windows taskbar with various application icons.

The screenshot shows a Google Meet window. On the left, a presentation slide titled "List and ArrayList" is displayed. The slide content includes:`public class ListDemo {
 public static void main(String[] args) {
 createAndAccessList(1);
 createAndAccessList(2);
 }
 private static void createAndAccessList(int type) {
 long start = System.currentTimeMillis();
 List list = (type == 1) ? new Vector() : new ArrayList();
 for (int i = 0; i < 1000000; i++) {
 Employee emp = new Employee("2020/" + (i+1));
 emp.setEmpName("Name " + (i+1));
 list.add(emp);
 }
 long end = System.currentTimeMillis();
 System.out.println("Time taken: " + (end - start));
 for (int i = 0; i < list.size(); i++) {
 System.out.println("Item at index: " + i + " is: " + list.get(i));
 }
 }
}`

Below the code, the output of the program is shown:

```
Time taken: 2146  
Item at index: 0 is: comp id=2020/1, name=Name 1, salary=50000  
Item at index: 19 is: comp id=2020/20, name=Name 20, salary=200000  
Item at index: 308 is: comp id=2020/309, name=Name 309, salary=309000  
Item at index: 1166 is: comp id=2020/1167, name=Name 1167, salary=1167000  
Item at index: 19234 is: comp id=2020/19235, name=Name 19235, salary=19235000  
Item at index: 999999 is: comp id=2020/999999, name=Name 999999, salary=999999000  
Time taken: 1592  
Item at index: 4 is: comp id=2020/5, name=Name 5, salary=50000
```

On the right side of the Meet window, there is a list of participants: Dignit C (Yash), Rishabh Singh Chaudhary, Akash Singh Chaudhary, Aniket Patil, Aniket Mishra, Anurag Chavan, Apoorva Thorat, Apurva Kulkarni, and Aniket Mishra. The bottom of the window shows the Windows taskbar with various application icons.

www.isquareit.edu.in

Hope Foundation's International Institute of Information Technology (I²IT) Hinjawadi, Pune- 411057

The screenshot shows a Google Meet window with a presentation titled "JDBC". The presentation content is as follows:

JDBC

- JDBC
 - Driver based
 - Database independent code
 - Driver, Connection: Connect to DB
 - Statement, PreparedStatement: Execute query
 - ResultSet: Read results of query
- Steps
 - Get Connection
 - Create Statement
 - Execute statement
 - Read results
 - Close result-set, statement, connection

Assignment

- Connect to Database using H2 Console
- Create a table account (acc_no (pk), customer, balance)
- Insert a Row to account table in HeidiSQL
- Write Java Program to read the row
- Change EmployeeStore to connect to Database and implement the CRUD methods.

The right sidebar shows a list of participants: Deepthi C (You), adinath mahangare, Akash Singh Chadha, aniket gade, aniket dhopate, anushka chavan, apoorva thorat, Apurva Kulkarni, aryan kanchappaogil, and assem dandagavil. The bottom status bar shows the time as 09:35 AM on 07-11-2020.

The screenshot shows a Google Meet window with a presentation titled "Java Programming Add-On Course". The presentation content is a Java program for JDBC. The code is as follows:

```
import account_util.AppException;
import account_util.DatabaseUtils;
import account_util.vo.Account;

public class AccountDAO {
    DatabaseUtils dbutils = new DatabaseUtils();

    public void createAccount(Account acct) throws AppException {
        Connection conn = dbutils.createConnection();
        try {
            PreparedStatement pstmt = conn.prepareStatement(
                "insert into account (acc_no, customer, family, balance) values (?, ?, ?, ?)");
            pstmt.setString(1, acct.getAccNo());
            pstmt.setString(2, acct.getCustomerName());
            pstmt.setDouble(3, acct.getBalance());
            int i = pstmt.executeUpdate();
            if (i != 1) {
                throw new AppException("Error: creating account: update count not matching");
            }
        } catch (SQLException e) {
            throw new AppException("Error: creating account: " + e.getMessage());
        } finally {
            // ...
        }
    }

    public void updateAccount(Account acct) {
        // ...
    }
}
```

The right sidebar shows a list of participants: Deepthi C (You), abhishek patil, Akash Singh Chadha, anant patil, aniket mukade, anushka chavan, apoorva thorat, Apurva Kulkarni, arpit kopare, and assem dandagavil. The bottom status bar shows the time as 10:44 AM on 08-11-2020.

Pune-411057**

Subject: Application to organize Add-on Course on "Python with Django" from 22nd September to 25th September, 2020

Respected Madam,

Department of Computer Engineering would like to organize Add-on Course on "Python with Django " for Third Year Computer Engineering students from 22nd September to 25th September, 2020 from 08:30 am to 04:30 pm by Ms. Sonali as Expert from Profound Edutech Private Limited, Pune.

I request you to permit us to organize this add-on course and sanction the remuneration amount as Rs. 16,000/- (+18 % GST) for the same. Following are the objectives and outcomes of the course.

Objectives:

1. To learn the power of Python to code web applications
2. To learn to build websites using the Django library
3. To learn Django best practices, recommended workflow and project structure

Outcomes:

On completion of this course students will be able to

1. Develop web application using Python and mysql database
2. Build a simple web site using Django Framework
3. Implement, maintain, and manage websites using Django

The CO- PO Mapping for the add-on course is as follows:

CO	PO 1	PO 2	PO 3	PO 4	PO 5	PO 6	PO 7	PO 8	PO 9	PO 10	PO 11	PO 12	PSO 1	PSO 2	PSO 3
CO1	1	2	3	3	3	1	0	0	0	0	3	3	3	3	3
CO2	1	2	3	3	3	1	0	0	0	0	3	3	3	3	3
CO3	1	2	3	3	3	1	0	0	0	0	3	3	3	3	3

Thanking you,

Prof. Deptii Chaudhari
Add-On Course Coordinator

Dr. Sashikala Mishra
HoD, Computer Engineering

Approved
Net
16/11/2020.

Work experience and highlights:

- A total of 7+ years experience with 6+ years in IT trainings and 1 year in development.
- 5,000+ hours of training on various technologies.
- Best performer awards for 2 years amongst all training centers of Profound Edutech – current employer

Technical Expertise:

- Excellent understanding of Object Oriented Programming, Java Technologies, Python, etc
- Having good knowledge of new technologies like Spring, Spring Boot, Hibernate, Python, Django, etc
- Good command over commercial RDBMS such as MySQL, Oracle, MS Access

Knowledge and Skills:

Technologies: Core Java, Adv. Java, Enterprise Java (Struts, Spring, Spring Boot, Hibernate), Python, Django, C, CPP

Front End Tools: Netbeans IDE, Eclipse IDE.

Web Related: Java Script, HTML, CSS, JQuery.

Web & Application Servers: Apache Tomcat.

RDBMS: MySQL and Oracle .

Operating Systems: Windows, Linux.

Trainings, Workshops conducted at various colleges:

JSPM ICOER, JSPM BSIOTR, MGM Nanded, Trinity Group, Pune, SVPCET, Nagpur, DACOE, Karad, SPS College, Sangamner, etc.

Education Details:

- MCS from Pune University with first class
- BCS from Pune University with second class
- HSC from State Board with first class
- SSC from State Board with first class

Academic Year 2020-21, Semester-II

Date:02/05/2021

To
The Principal,
Hope Foundation's International Institute of Information Technology, Pune-57

Subject: Permission for the Add-On Course

Respected Madam,

With respect to the above subject, department of Computer Engineering is organizing the Add-On Course from 02/05/2021 to 13/06/2021 at I²IT, Pune for TE students on **"Experimenting with Advancements in DevOps"**. Duration of the event is 25 hours starting on the date 02/05/2021 at 9:30 am.

The resource person details:

Name of the Expert: Mr. Shashank Gaikwad.

Affiliation/Designation: Business Analyst

Name of the Industry/Organization: Allscripts India LLP, Kharadi, Pune.

Email ID: gaikwad.shashank@gmail.com Contact Number: 99236 00461

Remuneration required (if applicable): Rs. 25,000 /-

Objectives of the Event (Max 6):

EOB1: To prepare the graduate with latest technical knowledge.

EOB2: To bridge the gap between the academic curriculum and software industry.

Outcomes of the Event (Max 6):

EO1: To demonstrate the latest technologies required in the industry.

EO2: To experiment with the recent software tools used in the industry.

EO3: To analyse the various software applications used in the industry.

Atul M Marathe
Brief Profile

Mr Marathe did his graduation in Mechanical Engineering from IIT Bombay and Masters in Industrial Engineering from NITIE Mumbai. He has a passion for training and has conducted several courses at colleges and within organizations where he worked, during his career.

Mr Marathe has over 30 years experience in software services and software product development industry. He has worked in EDP department of a machine tool factory and a chemical manufacturing units for over 8 years before moving to manage ERP and EAI software product development. Later he did managerial and leadership roles including a Global Business Solution center leader and a VP-Technical role in large IT organizations.

Mr Marathe is currently a free-lance consultant guiding students and faculty on disruptive technologies and life skills. His focus is on employment enablement education for engineering and management graduates. For past three years he is self-learning block chain technology. He completed a few online certificate courses and is an 'IBM badge holder for 'Blockchain essentials'. He also consults at Center for Industry 4.0, having built an Industry 4.0 maturity model for them.

Event Photographs:

Day 1:

Mr. Atul Marathe explaining importance of currency fiat and crypto currencies

The screenshot shows a Google Meet interface. The main window displays a presentation slide titled "Types of Virtual Currency Schemes (Categorization by the ECB)". The slide is divided into three columns: Type 1, Type 2, and Type 3. Each column shows a flow from "Real Economy Money" to "Virtual Money" and then to "Used only for virtual goods and services" (Type 1), "Can be used for virtual and real goods and services" (Type 2), and "Can be used for virtual and real goods and services" (Type 3). The right sidebar shows a list of participants: Atul Marathe, ritikesh bhatt, sejal kalyankar, and Sedik Shaikh. The chat window on the right shows messages from Atul Marathe and others. The bottom status bar indicates the meeting is titled "Day 1 Add-On course on 'Block ch...'".

Explaining different opportunities to build an application

The screenshot shows a Google Meet interface. The main window displays a presentation slide titled "Possible Applications to build". The slide lists several opportunities: DOOC: Distributed Open Online Courses platform, leading to world class professional certifications; Live experience in crypto-economics to college students; Use on campus for micro payment transactions; On Campus Blockchain Applications; Market Places, Transcripts, Digi Records; Student Peer rating for life skills; Incubation for start up projects, new business models; and Participation In Global projects, Hackathons. The right sidebar shows a list of participants: Atul Marathe, samiksha gawwad, Sadiya Shaikh, Sedik Shaikh, and sejal kalyankar. The chat window on the right shows messages from Atul Marathe and others. The bottom status bar indicates the meeting is titled "Day 1 Add-On course on 'Block ch...'".

Explaining Blockchain structure and formation

Explaining Blockchain working

HOW BLOCKCHAIN WORKS

- 1 A transaction is submitted
- 2 A block that expresses the transaction is created
- 3 The block is sent to every node in the network
- 4 Nodes validate the transaction
- 5 The block is added to the existing blockchain
- 6 The transaction is complete

Day 3:

Explaining Business needs, benefits and future hopes of blockchain

Day 3 Add-On course on "Blockchain Technology" (2021-03-03 at 19:50 GMT-8)

Future hopes on Blockchain ...

BLOCKCHAIN EXPLAINED... AFTER

... Consensus, provenance, immutability, finality: Single Views of Truth

2:04:28

Comparing different types of blockchain against its properties

Day 3 Add-On course on "Blockchain Technology" (2021-03-03 at 19:50 GMT-8)

Press **Esc** to exit full screen

Public vs Private BC

Property	Public blockchain	Consortium blockchain	Private blockchain
Consensus determination	All miners	Selected set of nodes	Within one organization
Read permission	Public	Public or restricted	Public or restricted
Immutability level	Almost impossible to tamper	Could be tampered	Could be tampered
Efficiency (use of resources)	Low	High	High
Centralization	No	Partial	Yes
Consensus process	Permissionless	Needs permission	Needs permission

1:01:06 / 3:02:29

Day 4:

Explaining Blockchain Technology stack

Day 4 Add-On course on "Blockchain Technology" (2021-03-04 at 20:19 GMT-8)

Blockchain Technology Stack

The diagram illustrates the Blockchain Technology Stack, organized into four horizontal layers:

- Application Layer:** Interaction, UI, Business Logic. It includes components like User Interface, Business Logic, Integration Layer, and Programming Layer.
- Services Layer:** Blockchain apps, Integration with other applications. It includes components like Events, Smart Contracts, and Blockchain Applications.
- Network and Protocol:** Consensus, Core Protocol. It includes components like Permissionless, Permissioned, Protocols, and Consensus Mechanisms.
- Infrastructure:** Hardware/Cloud, Nodes, Virtualization. It includes components like Hardware, Cloud, Nodes, and Virtualization.

Explaining Hyperledger Fabric Architecture

Day 4 Add-On course on "Blockchain Technology" (2021-03-04 at 20:19 GMT-8)

Press [Esc] to exit full screen

Hyperledger Fabric V1 Architecture

The diagram illustrates the Hyperledger Fabric V1 Architecture, showing the flow of data and transactions between various components:

- External CA:** External Certificate Authority.
- Services:** Services component.
- Peer:** The main component of the Hyperledger Fabric Network, containing:
 - Endorser:** Endorser component.
 - Committer:** Committer component.
 - Ledger:** Ledger component.
 - Chaincode:** Chaincode component.
 - Events:** Events component.
- Ordering Service:** Ordering Service component.
- Client Application:** Client Application component.
- SDK (HFC):** SDK (Hyperledger Fabric Client) component.

Hyperledger Fabric Network
