Activity Description in Nutshell:

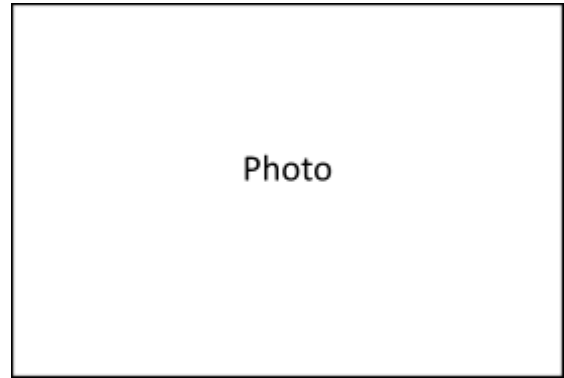

The members of I²IT CESA conducted a Webinar on the Trends in Networking Industry. It was organized by the co-ordinators of CESA Mr. Atharv Kulkarni and the teacher co-ordinator Prof. Sunil A. Sushir. The session was delivered by the resource person Mr. Bhaskar Bhumkar, he is Senior Manager, Software development engineering in CISCO. The session started with a brief introduction of the speaker Mr. Bhaskar Bhumkar given by the CESA members. Further the speaker provided some information about networking in general and then began with the different trends available. He also explained about few of the ongoing networking patterns used in the industry. As well as gave information about what can be useful while opting for placements. The

session then ended by the faculty and student's interaction with the speaker in a doubt solving discussion.
