Date & Time of the Event: 27th July to 28th July 2023 from 9 am to 5pm

Name of the Speaker: Mr. Deepak Chopade

Designation: Founder & CEO

Name of the Company / Institution with Address: DeeCee Technologies

Targeted Audience: TE – IT

Coordinator: Prof. Deepali Bhatnurkar

Number of Participants: 120

Activity Description in Nutshell:

The instructors walked us through what is linux, why it was invented, who was the inventor and what his visions were. Then they walked us through architecture of the linux operating systems. The importance of layered architecture of linux was emphasized. Post lunch instructor walked us through what is virtualization, how it could be beneficial and how to install a linux based Ubuntu OS on our own devices using virtualization softwares like Oracle VirtualBox and VMware. Installation was done and queries of the students during the installations were resolved by the instructor.

On second day instructor started with basic commands on linux like ls, cd, cat and so on. Moving on with complex instructions were introduced to do superuser level tasks. Piping was introduced. User management in linux was explained in detail. During the explanation the hands on tutorials were also done for better understanding. During the hands-on tutorial, the students had a lot of doubts which were later resolved by the instructors. The sessions were interactive hence a lot of student engagement was seen. The instructor were noticeably clear with the concepts hence they delivered content was received at maximum rate by the students.
