LETTER OF RECOMMENDATION

I am much pleased to write a letter of recommendation for Mr Prathmesh Lande, an undergraduate student of Electronics and Telecommunication department and my mentee at the International Institute of Information Technology, Pune for pursuing masters in Electrical and Information Technology with majors in Communication at your reputed University.

I've known him for three years now along with that, I was his mentor we have shared a good bonds and got to know each other a lot and in these years I am convinced of his abilities and attributes that will support him to attend the demanding master's studies. He has been honest and dedicated student of our department and I knew him better when I taught him subjects **Principles of Communications Systems** in Second year and **Electromagnetic Field Theory** and in the Third year of his curriculum. Working dedicatedly he worked hard in order to get good grades in my subject. He performed really great he scored (A) grades in both of the subjects. Being his Project guide for his Minor Project in Third year he had shown Punctuality and sincerity with his work he never hesitated to ask doubts while he was working on his project of Vehicle Speed Detector. Also he has a positive attitude, and a willingness to take on challenges which I noticed. He demonstrated an exceptional understanding of domains mobile communication systems and an eagerness to learn more about the fast changing ecosystem. Prathmesh attempted to improve his skills in the applications of technology and understanding circuit designs. His ability to in team is wonderful he likes collaborating and helping his fellow group mates was really well he used to listen.

Prathmesh displayed excellent analytical abilities, an aptitude for innovation, and the capacity to function well both independently and in a team. He has keen interest in the fields of Communications like Microwave Communication, Wi-Fi, Mobile Communication Systems, and Bluetooth Technology.

Though he had few setbacks because of his Gap in the First Year he was dedicated and worked hard to earn good, he came out strongly with flying colours and was among the top students in his Second and Third year from his department. He can be a great student for your University's master's programme in electrical and information technology because of his strong implementation skills. He can be an excellent graduate student at your prestigious University; I would put him among the top 10% of my college understudies from his class. As a result, I fully support Mr Prathmesh Lande for your Institution and send him my best wishes for the future.

With Best Regards,
