COMPLETION
LETTER

To whom it may concern,

This letter is to certify that Sidharth Kumthekar, a student of International Institute of Information Technology, has successfully completed the Alchemy Analyst Program. The duration of Sidharth's involvement with the Alchemy Analyst Program was from January 2023 to April 2023.

During our time together, Sidharth worked as an Analyst and made meaningful contributions to Alchemy's research, writing, and educational content publishing on web3 topics.

While overseeing Sidharth's work, he demonstrated a strong understanding of technical blockchain concepts, the emerging web3 industry as a whole, and applied this knowledge to create various instructional web3 guides to support the Alchemy team's growth initiatives.

Sidharth's primary responsibility was to comprehensively research topics on blockchain development including modular blockchains, Solana's program library, and Ethereum testnets to produce long-form educational articles that help developers learn about web3.

In addition to researching and publishing long-form explainers, Sidharth was an integral part of the team working on the "Alchemy Dapp Store," a searchable, online knowledgebase of web3 developer tools and decentralized consumer applications.

For his involvement with the Dapp Store, Sidharth worked alongside a team of 8 other Alchemy Analysts under my guidance to research and create listings for web3 niches and startups.

Throughout these two core projects, Sidharth worked directly under my mentorship, and was provided feedback across all areas of research, writing, and professional development.

During this remote internship opportunity, Sidharth demonstrated professionalism in his communication, teamwork, hustle, flexibility, and relationships with the Alchemy team.

Based on his performance, I recommend Sidharth for similar endeavors in the future within web3, and if given the opportunity, I would choose to work with him again.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Brady'.

This is to certify that Pritish Rajpurohit has completed his learning internship in Web Development with Imaginext Tech Solutions Pvt. Ltd. between February 20th, 2023 to April 29th, 2023.

We found the following key strengths in Pritish

- Keen learner
- Eager to try out new things
- Good at applying theoretical concepts in practice
- Open to constructive criticism

We would like to point out the following areas of improvement for Pritish

- Work on diving deeper into individual concepts and master each bit thoroughly before attempting larger objectives
- Learn to ask better questions, to save time for everyone.

I believe that Pritish can be an asset for any team that he works with in future and wish him all the very best for all his future endeavors.
