2	TA28	PALASH DHABALE	5	TA48	ADITYA KALE
3	TA33	ABHIS HEK FADAKE	6	TA60	RAHUL KUMAR

### **Activity Description in Nutshell:**

The initial ERP system, developed by third-year students of the Computer Department, has revolutionized employee management processes at Siddhagiri Hospital. By centralizing employee profiles, the system facilitates seamless integration of personnel data, optimizing tasks, leave management, and attendance tracking. This technological advancement has streamlined operations, allowing the hospital to allocate resources more effectively and deliver improved services to patients. Following the successful implementation of the ERP system for the hospital, we received new requirements to further enhance the system.
