Name of the Company / Institution with Address: PixafliP Technologies

Targeted Audience: SE - IT

Coordinator: Prof. Deepali Bhatnurkar

Number of Participants: 130

Activity Description in Nutshell:

The Department of Information Technology has organized the Add-On course from 24th Sept. to 27th Sept. 2023 at I²IT, Pune for SE students on “Fundamentals of Python”. The duration of the event was 8 hours/day and started on the date 24/09/2023 at 08:30 AM. A total of 130 students has attended the guest lecture.

The Guest Lecture was conducted through offline mode in Seminar Hall 307 (Academic Building 3rd Floor). The guest resource person was heartily welcomed by Prof. Deepali Bhatnurkar, Assistant Professor, Information Technology. Mr. Piyush Sonewar was the resource person for the Guest Lecture. He is the Co-Founder of PixafliP Technologies. He is also a Lead Developer at PixafliP Technologies.

During the Python Addon Course, we had the opportunity to delve into the world of Python programming. The course provided a solid foundation in Python, allowing us to understand its syntax and capabilities. Building GUIs and desktop applications was a valuable practical experience that showcased the versatility of Python.

The course opened doors to various Python applications, from automation to web development and machine learning. The hands-on learning approach enabled us to grasp these concepts effectively.

One highlight was learning how to build fully-fledged websites and web apps using Python. This skill has the potential to be a valuable asset in our future endeavors.

Overall, the Python Addon Course provided a comprehensive introduction to Python and its diverse applications, setting a strong foundation for further exploration and development.
