Targeted Audience: Students from SE, TE, and BE

Venue: Convection Center, International Institute Of Information Technology, Hinjewadi, Pune.

Coordinator: Prof.AryaChandrapal Singh

Number of Participants: 90 students

Briefing of the Event:

The session was led by a renowned data analytics expert, Mr. MurariRamuka who shared valuable insights and real-world examples.

During the lecture, we delved into the importance of data analytics in today's digital world. The speaker discussed various techniques and tools used in data analysis, such as data visualization, statistical analysis, and predictive modeling. We also learned about the ethical considerations and challenges that come with working with data.

In conclusion, the guest lecture was interactive, allowing us to ask questions and discuss case studies related to data analytics. It gave us a deeper understanding of how data can be leveraged to drive business decisions and solve complex problems. Overall, it was an enriching experience that broadened our knowledge and sparked our interest in the field of data analytics.
