

## **Value added on course on "Agility and its Methodology"**

**Academic Year:** 2023-24

**Name of the Event:** Value added on course on "Agility and its Methodology"

**Date & Time of the Event:** 24th February 2024

**Name of the Speaker:** Mr. Anand Paropkari

**Designation:** Director, Quality and Regulatory Affairs

**Name of the Company / Institution with Address:** Velsera

**Targeted Audience:** SE CE (A & B divisions)

**Venue:** Computer Center

**Event Coordinator:** Prof. Kimi Ramteke

**Number of Participants:** 118

**Activity Description in Nutshell:** This Value-added course was organized by the Department of Computer Engineering for second year students on 24th February 2024.

Mr. Anand Paropkari, Director, Quality and Regulatory Affairs, Velsera, has conducted the same in our department. It was organized to help and support students to build the understanding for the key principles of Agile methodology. Various topics were covered like the fundamental principles of Agile, including iterative development, customer collaboration, and responding to change. Many real time scenarios were given to develop the understanding and applicability of the same. Quizzes were taken to assess the understanding of the covered topics.

This Value added course would help students to identify and apply Agile practices, such as user stories, sprints, and retrospectives, to a provided project scenario through hands-on activities and discussions.
