### **Activity Description in Nutshell:**

In an effort to foster civic engagement and empower the future leaders of our society, NSS Unit of International Institute of Information Technology hosted a successful Voter Registration Drive on 09th December 2022. The initiative aimed to encourage students to exercise their right to vote and participate actively in the democratic process. To streamline the process, digital registration stations were set up, allowing students to register online. This modern approach aimed to cater to the tech-savvy preferences of the college population.

The voter registration drive witnessed enthusiastic participation from students across various disciplines. Many students who were eligible but not yet registered took advantage of the opportunity to complete their voter registration. The event contributed to a heightened awareness of civic responsibilities among the student community. The success of the event

would not have been possible without the collaborative efforts of the college administration, faculty members, election authorities, and, most importantly, the active participation of the students.
