VALUE ADDED COURSE

Academic Year: 2024-25

Name of Event: Value Added

Topic: “Android Application Development”

Name of the Speaker: Mr. Sumit Pathak

Date & Time of the Event: 3 March to 4 march 2025, 8:30 AM to 4:30 PM

Targeted Audience: SE IT B Division

Venue: I²IT, Pune

Coordinator: Prof. Jyoti Manoorkar

Number of Participants: 68

Activity Overview: Value Added Course on "Android Application Development"

A course was organized for the Second Year IT students on the topic "Android Application Development" The speaker, **Mr. Sumit Pathak**, an expert in Android Development, led the session. The two-day Android App Development course provided second-year engineering students with hands-on experience in building Android applications. During the course, students were introduced to the fundamentals of Android development, including setting up Android Studio, creating user interfaces, and using key components such as Activities, Intents, Views, and Layouts. They also gained practical skills in data storage integration, API usage, and debugging. Through various hands-on sessions, students designed and implemented a basic Android app, integrating essential features such as data storage and real-time API data retrieval. They received guidance on best practices for testing and debugging, and by the end of the course, successfully deployed their own working applications. The course was well-received, with students gaining valuable experience that enhanced their understanding of Android app development.
