**Activity Report
Audit Course Poster Making Competition**

Academic Year: 2023-24 Sem II

Name of Event: Poster Making Competition

Topic: E-Waste Management and Pollution Control

Date & Time of Conduction: 6th April 2024, 10:00 AM - 12:30 PM

Targeted Audience: SE

Venue: Lab 213, 214, 223, 224

Number of Participants: 27 Groups from SE

Activity Description in Nutshell:

Posters created for the Audit Course of SE on topic “**E-Waste Management and Pollution Control**” The participants displayed the posters under the competition and were awarded a prize based on criteria of creativity, presentation skills, teamwork and QA.

Topics covered in the session:

This course is conducted for SE IT students. They were instructed to create the poster addressing a subtopic of their audit course. The primary aim behind organizing the competition was to bring out the awareness of these topics.

Event Objectives (EO):

1. Understand the characteristics and sources of e-waste, including electronic products and their components.
2. Analyze the environmental and health hazards associated with improper disposal and recycling of e-waste.
3. Evaluate regulatory frameworks and international agreements related to e-waste management and pollution control.
4. Develop creative and informative poster designs to raise awareness about e-waste issues and promote sustainable solutions.

Program Outcomes (PO):

1. Environmental Knowledge: Apply knowledge of environmental science and engineering principles to identify, assess, and mitigate the environmental impacts of e-waste generation and disposal.

2. Communication Skills: Communicate effectively through visual media such as posters to convey complex environmental concepts and solutions to diverse audiences.
3. Regulatory Compliance: Demonstrate understanding of regulatory requirements and best practices for e-waste management and pollution control, including recycling, reuse, and proper disposal methods.
4. Creativity and Innovation: Generate innovative solutions and creative designs for promoting awareness and advocacy on e-waste issues through poster-making and other visual mediums.
